Sprint 3 Retro

Web Services

What went well	Votes
App is coming together well and starting to show major functionality!	0
Pumped out pretty much all features in our shortest sprint	0
John and Ralph continued to be wizards at implementing features	0
Honestly think we got our functionality tasks all knocked out.	0
Deployment looks like something that might be deployment if you tilt your head and squint your eyes	0
Some very nice README files	0
E2E testing	0

What could be improved	Votes
More tests	0
Integration tests	0
Ralph not breaking tests/ other commits	0
Continue improving understanding of github actions and workflows	0
Need to polish existing features w/ more coverage of use cases.	0
Communcation w/ instructor	0

Next steps	Votes
Demo project to Professor	1
Clean up presentation and minor bugs	0
